Introduction

It is important to read these qualification achievement rates alongside our update on the approach we have taken to assessment grading in 2022 on our website [here](#). In acknowledgement of the disruption to learning and to support fairness for all learners certificating in summer 2022, we have taken loss of learning into consideration.

On this basis, we have applied a form of 'safety net' for synoptic assignments and examinations within our Technical Qualifications wherever appropriate.

We do not provide raw learner numbers for qualifications and so percentage achievement rates may not always be directly comparable as the volume of learners will vary across qualifications.

Please note percentage figures have been rounded to a whole number.
